IELTS Academic Vocabulary for Nurses

Everyday academic and healthcare words that are useful for IELTS Academic reading, writing and speaking.

This is a sample document added to test the Study materials section of the website.
Replace it with ONS Academy's own materials from the admin panel.

Describing trends (Writing Task 1)

- increase / rise / grow - to go up
- decrease / decline / fall - to go down
- fluctuate - to go up and down
- remain stable / level off - to stay about the same
- peak - to reach the highest point

Giving opinions (Writing Task 2)

- In my view, ... / I would argue that ...
- On the one hand, ... On the other hand, ...
- A significant drawback of this is ...
- Overall, the advantages outweigh the disadvantages.

Health and care words

- chronic - lasting a long time; acute - sudden and short-term
- prevention - stopping something before it happens
- patient-centred - focused on the patient's needs and wishes
- workload - the amount of work a person has to do
- well-being - a person's health and happiness

Practice tip

- Learn words in short phrases, not alone: 'a sharp rise in admissions' is easier to use than 'sharp'.
